

Mont Chery to Mont Caly

**A high altitude ride or walk to Mont Caly restaurant for lunch.
Sensational views.**

Description

A picturesque trail that starts at 1850m altitude from the top of the Mont Chery cable car. A singletrack route that will lead you through a mix of forest and alpine meadow, inishing up in the hamlet of Mont Caly before looping back to the top of the Mont Chery cable car. Perfect for a keen cyclist or a family of bikers as the trail is shared with walkers and trail runners.

It is not a strenuous ride but does have 165m of ascent and the first section has a gradient of 7.2% (60m of elevation over 800m). It enjoys stunning views and helps those new to the lifts and riding at altitude

to get a taste of the real McCoy!
